### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest an in-mold label made of multilayered polypropylene film such that the inner top layer of the label, which faces the container to be molded, has a roughness of at least  $3.5\text{ }\mu\text{m}$ , or an in-mold labeling process utilizing such a label. Close prior art is Takatori et al. (5,804,127) which teaches an in-mold label with a surface roughness of from 1 to  $100\text{ }\mu\text{m}$ , but teaches that the rough surface of the label faces the mold, not the container (column 8, lines 11-20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
